Address: P.O Box 300-10303, Kirinyaga

Personal Profile

A highly motivated Bachelor of Science in Mathematics with Computing graduate with a Second Class Honours (Lower Division) from the University of Embu. Currently pursuing Software Engineering at PLP Academy with a specialization in Artificial Intelligence. I possess strong analytical, problem-solving, and programming abilities. My academic background, combined with hands-on experience in data analysis and software development, has equipped me with the technical skills and adaptability required in a fast-paced, dynamic work environment.

Education

Bachelor of Science in Mathematics with Computing

University of Embu, 2020 - 2024

- Honours: Second Class Honours, Lower Division

Software Engineering (Artificial Intelligence Specialization)

PLP Academy, 2024 - Present

Technical Skills

- **Programming Languages:** Python, JavaScript, C, C++
 - **Data Analysis & AI Tools:** Pandas, NumPy, TensorFlow, Scikit-learn
 - **Database Management:** MySQL, SQL
 - **Software Development:** Web development, API integration, version control (Git)
 - **Analytical Skills:** Strong problem-solving, statistical analysis
 - **Soft Skills:** Excellent communication skills, team collaboration
-

Projects

- Developed and deployed machine learning models for data-driven decision-making.
- Built interactive web applications integrating AI-based functionalities.
- Conducted data analysis using Python and R to derive actionable insights.
